Strata's former civil sub, Fall Line Construction, had ignored remediation instructions from the James City County inspector for several weeks who had in turn not allowed Strata/Fall Line to open up more of the site to land clearing. This situation was moving quickly towards an environmental NOV so we advised Strata to remove the contractor (for environmental and safety compliance issues) as a first step to bring the site into compliance.

At the same time Strata mobilized their own civil resources on site to meet the inspector's stabilization and remediation requirements. We don't expect any cost or schedule changes from Strata and they are evaluating a couple of local replacement civil contractors (Henderson and JSG) who were recommended by JCC officials. No official notice from Strata yet on who they have selected. I'll send you a note once I learn more.

Hey Mike,

Can you give me a little more background on what was going on with the Civil contractor at Rochambeau that was removed? And has Strata found a replacement yet?

Thanks...
